over to an interim dividend of 50 per cent paid in August last, were able to recommend a final dividend of \$5 per share, carrying a total cost of \$1,000,000. The amount, which I trust will be considered satisfactory. Although at this early period it is impossible to forecast with any actual accuracy the results of the year, no doubt will be entered. I may say that the trade appears to be in a healthy condition. I look forward with confidence to the future; the demand for supplies and raw material is moderate, and the stores of raw material have never from last year been as low as appreciated. The refineries are being maintained in the best condition. Refinery buildings and machinery, and the General Agents are pleased to express their appreciation of the ability and zeal of the Company's staff at the refinery. I have no further to say in connection with the report and accounts I shall be pleased to answer any questions that may be put.

MR. LEONG—Mr. Chairman, as the large firm of Messrs. Guthrie & Co. are the sole agents, may I ask what coal your have been using so far, the last three or four months?

THE CHAIRMAN—During the whole of it we have been using the best small coal, in which the Company had no direct interest at the mine. Since the beginning of this year we have used a mixture of Milki and small coal, but I have no objection to the inference being made by our engineer that there is a saving in the consumption and also a saving as regards price to the Company.

MR. LEONG—By Hozyng coal I suppose you mean Charbonnages.

THE CHAIRMAN—Yes, Charbonnages.

MR. LEONG—Thank you, only I have been told I was wrong in the interests of the Company and I have done it.

THE CHAIRMAN—As there are no more questions I beg to propose the adjournment of the meeting to the 24th ult. at 10 o'clock.

MR. MURRAY BAIN—I have great pleasure in seconding.

Arriving unanimously.

MR. GEORGE proposed that Messrs. St. Michaelson, E. K. Beilfior, F. A. Gumes, D. J.

The ordinary annual meeting of this Company was held at the office of the General Agents Messrs. Jackson, Matheson & Co., on the 19th inst. Mr. J. J. McIlrigin presided and there were also present—Messrs. T. B. Davis (number 1), Charles G. Gifford, C. S. Lewis, E. K. Ross, C. W. Dickson, H. O. Shing, Ng Wei, Hee Fong, Ng Lai Tong, Ho Fak, and H. C. Maclean (Secretary).

Mr. Gifford—Gentlemen, with your permission I propose to consider the report as read. I need scarcely say that the General Agents were exceedingly happy to present to you an account showing such a favorable result, but owing to the extraordinary financial depression which last year existed in Spain it was quite unavoidable. As shown in the statement of profit and loss, the Manila agents have kindly consented to forego their share of the profit, amounting to \$3,879.39, and the Co. retiring Committee to waive their remuneration of \$1,500 to which they are entitled, concessions which I have no doubt will find a ready response in the minds of all stated in the report: there is little I can add to assist you in taking a just view of the Company's position. Since the close of the year, the business of the Company in Spain for our agents to arrive before the 1st July, which has not only allowed of all stock being cleared off but admits of work being done in the refinery, late sales showing a fair margin of profit. I have no doubt, therefore, I regret to say there is for the present no inquiry. The cause of this is that the Spanish Government have recently decided to levy increased duties on all foreign goods and foreign goods imported after that date, with the view of protecting home industries; but the belief of those here is to form an opinion is that Spain cannot pay such duties without the Government ceasing to receive any revenue. To avoid anything like such a result, the Government
